License:	Personal	Commercial
<b>Support</b>		
Email and Phone support	x	✓
Online Support materials, plus video tutorials and forums	✓	✓
<b>3D Modeling</b>		
SketchUp's core 3D drawing tools	✓	✓
Access to 3rd party modeling extensions	✓	✓
Solid Modeling: Union, intersect, subtract, split and trim volumes	x	✓
<b>Documentation &amp; Presentation</b>		
Dimension and annotate scaled SketchUp models	x	✓ (LayOut)
2D vector drawing tools and titleblock templates	x	✓ (LayOut)
Create large-format, multi-page design documents	x	✓ (LayOut)
Embed 'linked' SketchUp files with real-time syncing	x	✓ (LayOut)
Present SketchUp models in live, full-screen presentations	x	✓ (LayOut)
Create scene-based animations for dynamic fly-through presentations	✓	✓
<b>BIM Tools</b>		
Create data-rich BIM components	x	✓
Tag geometry with industry-standard object types/classifications	x	✓
IFC export/import incl. 3D geometry and metadata	x	✓
Generate model reports and takeoffs	x	✓
<b>Exporting and importing</b>		
Import and Export of COLLADA (DAE) and KML	✓	✓
Import and Export of 3D and 2D files (DWG,DXF,3DS, JPEG, PNG & more)	x	✓
<b>Documentation &amp; Presentation</b>		
Dimension and annotate scaled SketchUp models	x	✓ (LayOut)
2D vector drawing tools and titleblock templates	x	✓ (LayOut)
Create large-format, multi-page design documents	x	✓ (LayOut)
Embed 'linked' SketchUp files with real-time syncing	x	✓ (LayOut)
Present SketchUp models in live, full-screen presentations	x	✓ (LayOut)
Create scene-based animations for dynamic fly-through presentations	✓	✓
<b>Printing</b>		
Print multi-page documents on any sheet size	x	✓ (LayOut)
Print single-page views of your SketchUp model window	✓	✓
<b>Visualization</b>		
Generate high-quality, vector and hybrid rendered images	x	✓ (LayOut)
Advanced camera tools for planning camera placement	x	✓
Create custom edge treatments for styles	x	✓ (Style Builder)
Browse, create, edit, and share styles	✓	✓
<b>Integrations</b>		
Trimble Connect - Cloud-based storage and collaboration	x	✓
3D Warehouse - Import/export components	✓	✓
Google Earth - Import aerial photos and terrain data	✓	✓
